

HELPOTHON FRONTDESK

Your Website's 24/7 Digital Front Desk

The Truth About Your Website Traffic

Your website already gets visitors.

They're browsing, reading, considering your services. The traffic is there. The interest is real.

But here's what happens next:

Most of them leave silently. No call. No message. No lead captured.

Not because they aren't interested – but because nobody was there to answer them.

The Real Problem

Modern customers have changed. They expect instant gratification and immediate answers. Here's what they don't want to do:

Search endlessly

Nobody wants to dig through multiple pages hunting for basic information about your services or pricing.

Read lengthy content

Long-form pages lose attention. They want quick, direct answers to specific questions.

Wait for email replies

A 24-hour response time feels like an eternity when they're ready to buy now.

Call during office hours

They're browsing at 10 PM or on Sunday morning – when your phone lines are closed.

They want answers now. If they don't get them → they leave → and they contact your competitor instead.

THE SOLUTION

Introducing HELPOTHON FRONTDESK

A smart AI-powered digital front desk for your website that transforms visitor experience and captures every opportunity.

Answers Instantly

Responds to customer questions in seconds, not hours or days.

Reads Everything

Automatically understands and processes your entire website content.

Captures Leads

Collects contact information naturally while providing helpful answers.

Never Sleeps

Works 24/7/365 without breaks, vacations, or staffing concerns.

Your website starts talking back. Every visitor gets immediate, intelligent assistance.

Why This Is Different

Not all chatbots are created equal. Here's what sets FRONTDESK apart from generic solutions:

Most Chatbots:

- ❌ Require manual FAQ training and constant updates
- ❌ Break completely when your content changes
- ❌ Miss nuanced or unexpected questions
- ❌ Feel robotic, scripted, and impersonal
- ❌ Frustrate users with "I don't understand"

Helpothon FRONTDESK:

- ✅ Automatically understands your **entire website**
- ✅ Answers from your actual content and pages
- ✅ Adapts automatically when you update your site
- ✅ Sounds natural, helpful, and conversational
- ✅ Handles complex, multi-part questions

📄 **If it's on your website – the AI already knows it.** No manual training required. No FAQ lists to maintain. It just works.

What FRONTDESK Does for You

1 Instant Answers

Handles the questions that drive your customers crazy when unanswered:

- Service details and descriptions
- Pricing and package information
- Location and directions
- Business hours and availability
- Policies and terms
- Process and timeline questions

Every answer comes directly from your website content, ensuring accuracy and consistency.

2 Automatic Lead Capture

While providing helpful answers, FRONTDESK politely collects essential information:

Name

Phone or Email

Specific Requirements

You get notified instantly with warm leads who've already engaged with your business.

What Changes for Your Business

1

Before FRONTDESK

- Missed inquiries from after-hours visitors
- Staff overwhelmed with repetitive questions
- Customer calls at inconvenient times
- Manual follow-ups eating up time
- Lost leads going to competitors
- No data on visitor questions

2

After FRONTDESK

- Every single visitor is attended to
- Serious visitors automatically become leads
- True 24/7 availability for prospects
- Zero additional staff required
- Zero ongoing effort from your team
- Valuable insights into customer needs

Your website transforms from a static brochure into an active sales assistant.

Who This Is For

If your business has a website, customers asking questions, and leads that matter – you need FRONTDESK.

Clinics & Healthcare

Appointment info, insurance, services

Consultants

Service packages, rates, availability

Real Estate

Property details, viewings, pricing

Ecommerce

Product info, shipping, returns

SMEs & Startups

Any customer-facing business

Service Providers

Process, pricing, credentials

Cost vs. Reality

Hiring 1 Support Person:

₹15,000 – ₹25,000/month

- Limited to business hours only
- Human errors and inconsistencies
- Sick days and vacation coverage
- Training time and turnover costs

Helpothon FRONTDESK:

A fraction of the cost

- Works 24/7/365 without breaks
- Never forgets information
- Never gets tired or overwhelmed
- Consistent, accurate responses

Pays for itself with just 1–2 quality leads per month.

Getting Started Is Effortless

Setup Time: 30–45 Minutes

That's all it takes to get your digital front desk live and working.

You Just Share:

- Your website URL
- Basic business details

That's it. No technical information needed.

We Handle Everything:

Our team does the rest – integration, testing, and optimization.

✗ No Coding

Zero technical skills required from your side

✗ No Disruption

Your website keeps running normally

✗ No Learning Curve

Works immediately after setup

 **Free Trial Available:** Try FRONTDESK live on your actual website before making any commitment. See the results yourself.

Ready to Start?

Reply with just two things:

1. Your Website URL

2. Your Business Name

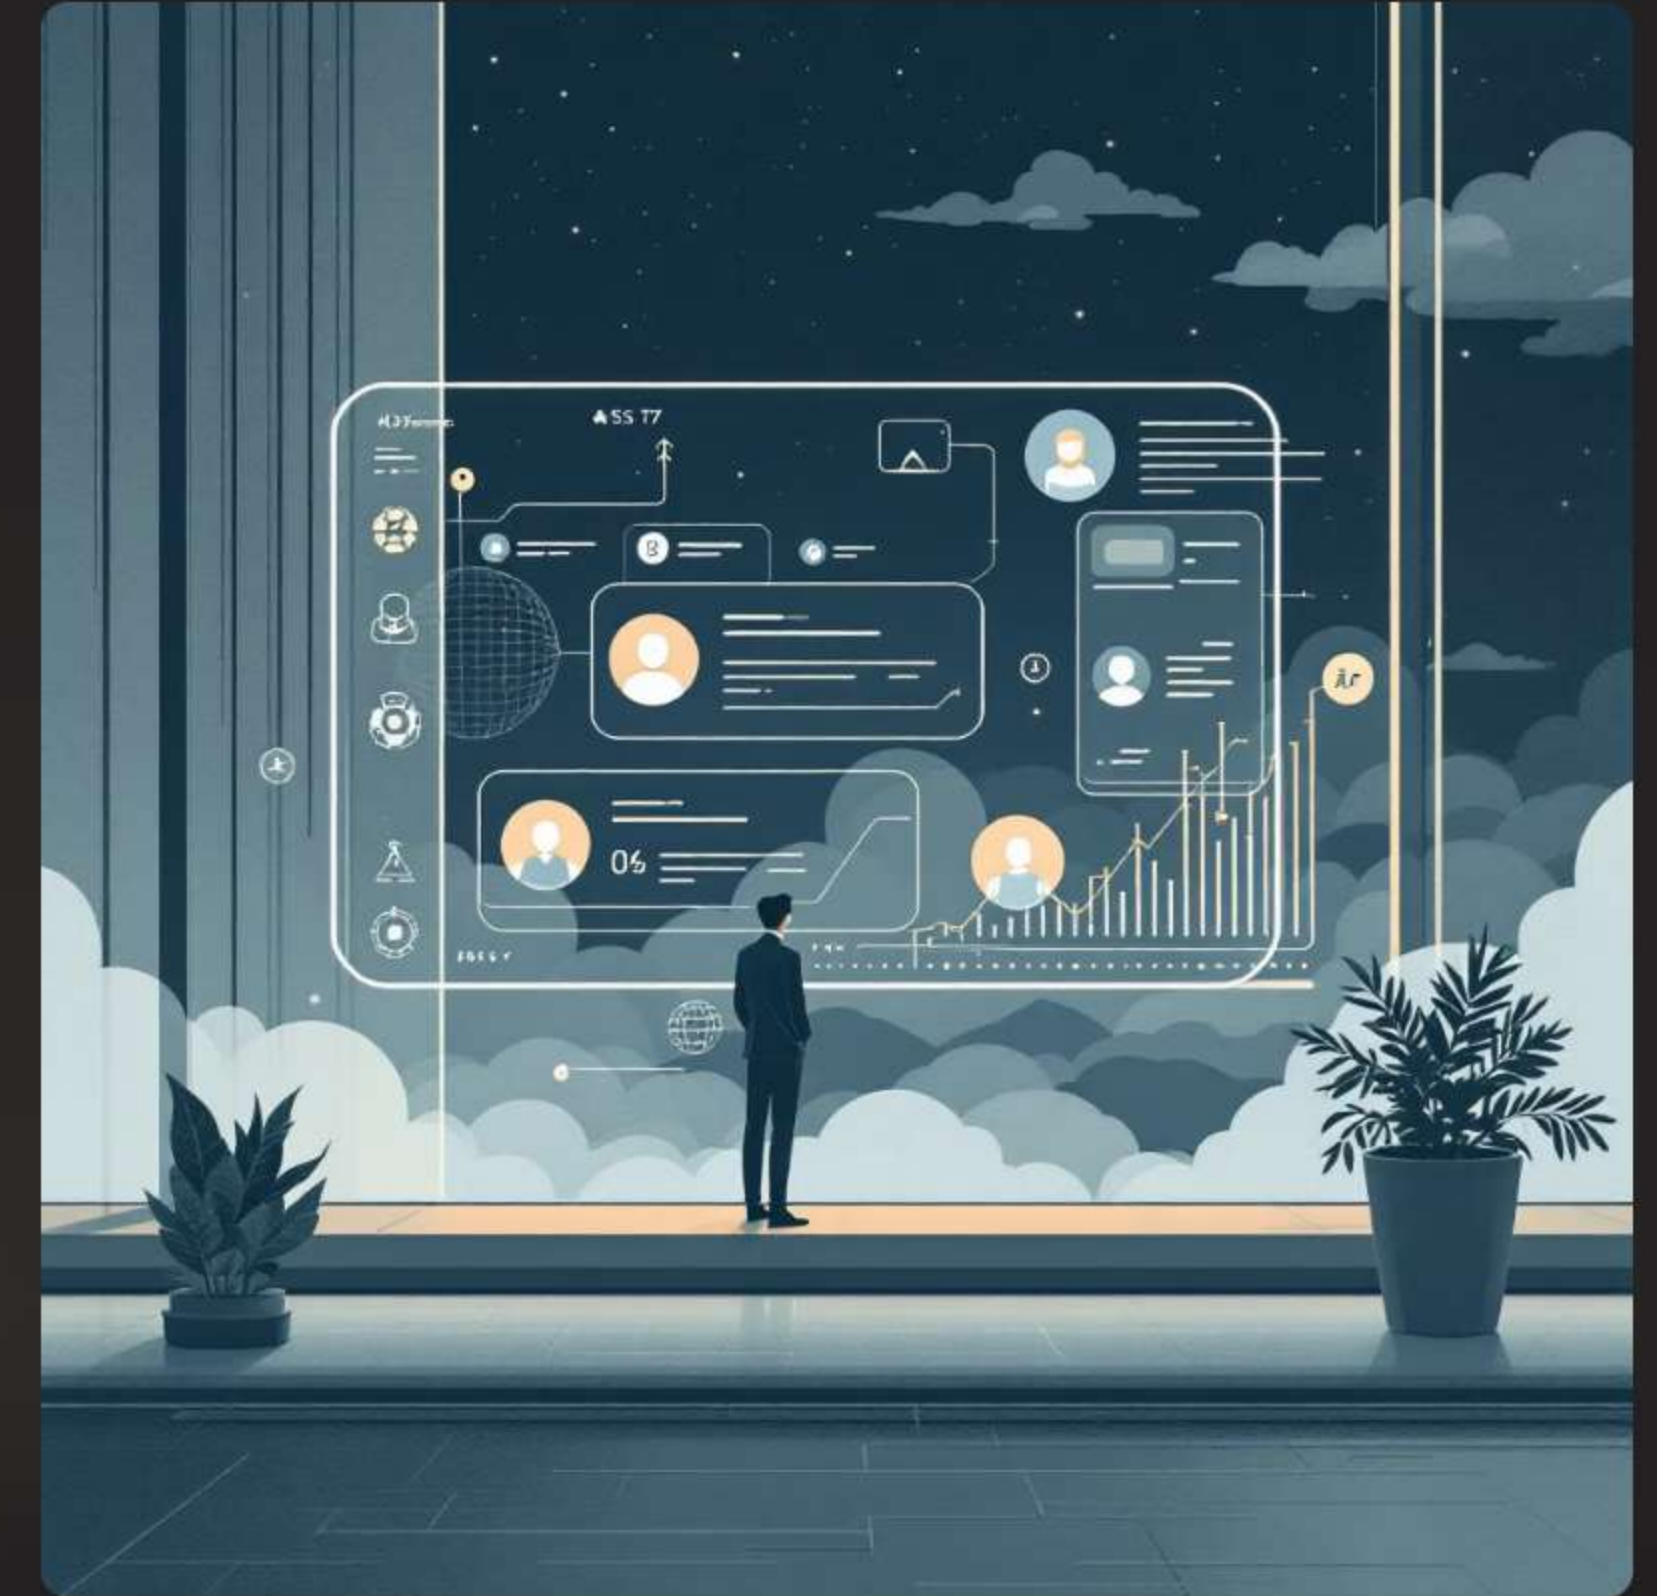

We'll activate your digital front desk and you can watch it transform visitor engagement in real-time.

If a customer visits your website tonight...

Will someone be there to answer them?

Your competitors are online. Your customers are searching. Opportunities are happening right now.

If nobody's answering – FRONTDESK should be.

HELPTHON FRONTDESK

Your website's smartest employee. Always on. Always helpful. Always converting.

Thank you for your time. Ready to transform your website into a lead-generation machine? Let's get started.
